Subject: property access

Mr. Yach,

I am working with Kristen Hanson from LDF, Dave Larsen from REI and Chris Saari from WDNR on the Tower Standard site next to your Haskell Lake Lodge.

We are funding the installation of 2 wells to help with the investigation at the site. One of the wells will be on your property near the two wells down by the shore of Haskell Lake. I would like to send to you a standard access agreement which allows us to access the property for the installation of the well and sampling of all three wells at this location.

I know that there are multiple entities involved in this work which can create some clarity issues about who is doing what. We are working together to find a solution to soil and groundwater contamination at and near the Tower Standard property, and I would much appreciate your cooperation in allowing access.

I will forward a copy of our agreement when I return to the office. Please let me know if you have any questions. I will be at the site with REI, LDF and WDNR for the next two days if you have a chance to stop by, or if you know when you will be available, please let me know. My cell number is 708 296-0102.

Thank you.

Bob
